SUMMARY

Frontend-leaning web developer with hands-on experience building JavaScript interfaces and a background in client-facing technical support for a fintech platform. Comfortable working across the stack from UI implementation to third-party API integration, with a track record of quickly picking up new tools and taking on leadership responsibility.

EXPERIENCE

Mindbridge Sep 2025 – Apr 2026

Technical Solutions Engineer → Team Lead

- Delivered real-time technical support to international clients in the fintech sector, resolving software and system issues across live production environments.
- Supported KYC (Know Your Customer) and FIU (Financial Investigation Unit) workflows for Revolut, helping ensure compliance-critical processes ran smoothly for end users.
- Optimized user experience and contributed to ongoing product improvements by surfacing recurring issues and feedback to the product team.
- Progressed from Technical Solutions Engineer to Team Lead within the role, taking on added ownership and mentoring responsibilities.

PROJECTS

[Paint Clone](#) HTML5 • CSS3 • JavaScript • Canvas API

- Canvas-based drawing app with brush, eraser, and fill tools, color/size controls, localStorage persistence, and PNG export.

[Kanban Drag & Drop](#) HTML5 • CSS3 • JavaScript • Drag & Drop API

- Trello-style task board using the HTML5 Drag & Drop API with persistent local storage for columns and cards.

[NASA APOD](#) HTML5 • CSS3 • JavaScript • REST API

- Consumes NASA's Astronomy Picture of the Day REST API with asynchronous data fetching and a favorites/saved-items feature.

[Custom Video Player](#) HTML5 • CSS3 • JavaScript • Video API

- Custom UI layered over the native HTML5 video API, including play/pause, progress, volume, playback speed, and fullscreen controls.

[Quote Treasure](#) Tailwind CSS • JavaScript • REST API

- Quote generator built with Tailwind CSS, pulling from an external quotes API with social-sharing integration.

[Joke Teller](#) JavaScript • Fetch API • Web Speech API

- Fetches jokes from a public API and reads them aloud using the Web Speech API (text-to-speech).

SKILLS

- Languages: JavaScript (ES6+), HTML5, CSS3, C++, java
- Frameworks/Libraries: Tailwind CSS, Bootstrap
- Tools & Platforms: Git & GitHub, VS Code, Chrome DevTools, Figma, Firebase, Android Studio, Windows, Ubuntu Linux
- Other: Client-facing Communication, Team Leadership, Time Management, Remote Collaboration, Problem Solving
